

Up to 250.000 waypoints and camera snapshots proof your adventure and route.

The latest Mountain Bike Trip was great. Especially the last parts, nobody believes you. But now you proof all the way with the TrackCam, who stores up to 250.000 waypoints or your journey and shows it on a map or server - as you like. These are great memories, also with the pictures you can show and connect.

A Digital camera can be connected to the tracker to make the pictures.

The Catcorner TrackCam is perfect for relaxed memories of your latest holidays or outdoor adventures.
