

The new generation is powerful, stylish, but less expensive

MLoad your mobile, game console or MP3-Player with the power of the sun. Whenever you want, wherever and away from any powerlines. The only thing you need is sun or lightly cloudy sky. Within three to five hours, you have a fully loaded mobile accu, for example.

The best is, you can store energy on demand with the built in rechargeable battery! The "Mini-Solar" does not only load directly, but also stores the energy on sunny times for the future.

The "Mini Solar" is shipped with great set of 5 mobile and other adaptors. More are available in all common adaptor shops.

It can be imprinted, engraved and the box can be designed upon customers ideas. The adaptorset is variable, you can select the products, which should be supportet.

Here is the compatibility list of the standard set:

1. Nokia 3100 1600, 2652,3100, 3230, 5210, 6030, 6060, 6100, 6108, 6210,6220, 6230, 6310, 6510, 6610, 6670,7200, 7210, 7250, 7280, 7380, 7610,7650, 8210, 8250, 8310, 8800,8810, 8850, 8890;
