

## Sunburn warner - Safes your holidays

If you want to relax at the local bathing lake, take a sunbath in your garden, holiday in the Caribbeans or go skiing and climbing in the mountains. A serious sunburn can blast the comming night and the next days.

This is, where the sunburn warner helps to protect your holidays. Attach it to your bag, shorts, belt or bath towel. An audio signal warns you, when the UV level of the sun increases and let you protect your skin. It will also show you, which UV protection level is necessary.

The sunburn warner only works with pure sun - not with industrial light as sunbeds. He is easy to handle and gets is energy from a Li-Io Battery. The case is water protected and skid resistang
