

Wakes you up smoothly and let you fall in sleep the same way

Brutal awakenings with loud shrilling bells, nerve killing honks beneath the pain threshold are history and gone.

Come softly out of Morpheus arms, when the light in the room is smoothly dimmed lighter in a color you have chosen the evening before. Meanwhile listen to your favorite FM station or alternatively, to sounds of the nature. Up to 90 minutes lead time to awake and sleep are possible.

Imagine how good it would be, if you come home after a hard and stressy day, go to bed and enjoy the decreasing light and sounds of nature, before you fall to sleep. Could be the best time of the day, probably.

Here are some features:

1. Nice, decorative and senseful wellness product
2. Watch, alarm and calender function
3. Manual or automatic color selection
4. If you like, an simple alarm sound wakes you up
5. Brandings like imprint and customized box are possible

Shipment: SunClock, manual
