

Crank the energy for the torch with 3 bright LED and load your mobile phone

Save energy and do a little for your muscles in the arm. The cranking torch "Deluxe" is a bright light LED torch, which gets its energy only by rotating.

The cranked energy can also be used, to be a kind of a emergency power for your mobile. A set of 5 standard adaptors is included in the shipment and will help you, when you are out of energy.

Over the thump: cranking one minute, results in 10 minutes of light or with a little more cranking up to 10 minutes of talking time for the mobile or one hour standby.

The LED`s work more than 100.000 hours. It is a perfect tool for outdoor sports and houses.

Different colors are available, brandings like imprint and custom giftbox are possible. Other adaptors instead of the ones included, could be chosen.
