

A nice and trendy Christmas gift

Christmas has become a party with nice decorations and a lot of houses, flats and offices look like a themepark for Santa, Rudolf and his friends. A perfect place for our "USB Winterworld", which colors your desktop in the finest blue, red and green impressions.

Santa is slowly crawling the water, the gift all around him. A red LED lights the scenery and the soft babble of the wafter harmonizes you and brings you back the dream of peaceful christmas time.

Leise bewegt sich Weihnachtsmann und Geschenk durch das Wasser, während eine rote LED für die nötige Stimmung sorgt. Das sanfte Plätschern beruhigt vom Vorweihnachtsstress, wer den PC auch mal ausschalten möchte, kann auf Batteriebetrieb umschalten und die USB-Winterwelt auf den Nachttisch stellen.

This fine promotional and premium has a big imprintable space at the top and a big one on the front. If you want to take it with you, two batteries provide you with the necessary power.

Some Features:

1. Power supply by batteries or USB port
2. Up to three Christmas themes included
3. Size about. 62x92x90mm
