

Heart MP3-Player

Perfect for couples, Valentins Day, yearly Anniversaries and Birthdays.

Our Heart MP3-Player saves the favorite songs of two people on two different flash memories, one in each part of the heart. Every partner can keep his half and listen to the music, when ever he wants.

But when both players are reunited, there is a surprise waiting.

Germanys leading computer magazin "Computerbild" reported in 02/2009 about the Heart MP3-Player. Thank you!

- 1.) Multi-Codec MP3-Player, supports MPEG1, MPEG2, MPEG3, WMA, WMV, ASF, WAV
- 2.) Once transmitted, both parts of the player play the same songs
- 3.) Optional FM-Radio
- 4.) Different colors available
- 5.) Can also be used as USB-Flashdrive
- 6.) Low Energyconsumption
